**\$75**

Join us for an in-depth one-day training session on all things related to CCC ONE, whether you are a CCC estimating customer or a body shop management customer. Presented in conjunction with Collision Advice, this course will provide attendees with a deep understanding of pre-repair, repair and post-repair processes.

**Pre-Repair**

**Repair**

**Post-Repair**

Through hands-on training and expert instruction, attendees will learn how to optimize CCC ONE to improve their body shop's performance. Topics covered will include estimating, repair tracking, parts management, invoicing and customer communications. Attendees will also gain insights into maximizing efficiency, reducing cycle times and increasing profitability.

This course is designed for shop owners, operators, and managers who want to take full advantage of CCC ONE's capabilities.

Whether you are a CCC ONE newbie or an experienced user looking to take your skills to the next level, this course is the perfect opportunity to learn from industry experts and optimize your body shop's performance.

**Attend both this event and Saturday's Estimating a Safe and Proper Repair Event for additional savings!**
